Switzerland

Lima, 15 September 2017

Dear President,

The Sports Programme of the Olympic Games provides the core of the Olympic Games and the Olympic Movement. It provides a focus for athletes, IFs, NOCs and the global broadcast audience. Since its inception in 1896, the Games of the Olympiad have represented a balanced programme comprising of a variety of sports from across the Olympic Movement. This programme has reflected positive feedback and response from spectators, media, broadcasters and sponsors alike, with the ongoing popularity demonstrated in record levels of coverage and audiences of the Olympic Games Rio 2016.

Following the selection of the host city, and on proposal of the IOC Executive Board, the 131st IOC Session in Lima has confirmed the place of Boxing in the sports programme of the Olympic Games 2024.

The IOC thanks you for the ongoing partnership we share in the planning and delivery of the Olympic Games, and your ongoing focus on your sport and athletes. The IOC looks forward to our continued collaboration with regard to the preparation for the Olympic Games Tokyo 2020 and the first steps towards our shared goals for the Olympic Games 2024, including detailed discussions in due course regarding the event programme, athlete quotas and venue planning.

Yours sincerely,
