Introduction:

I started my sport career as a swimmer which helped me to raise my stamina, endurance and the capability to exceed my limits all the time. I was bronze medallist in the 200 m butterfly swimming and in the 4x100m medley relay at the Bangkok 1978 & New Delhi 1982 Asian Games therefore I know the feeling and the motivation of our athletes.

Following my sports career and studies I worked in public relations, event organizing and management areas. I have been supporting Indonesia's boxing life since many years. I am the only woman Technical Delegate in Indonesia in all sports and the first one in the country's sport history in this high international position.

I am voluntarily working as the Secretary General of the Indonesian Boxing Federation in my general daily work and I have been supporting the world's boxing life as ITO since 2012. I was the Technical Delegate of the Awahati 2017 AIBA Women's Youth World Boxing Championships and also the Ho Chi Minh City 2017 ASBC Asian Confederation Women's Boxing Championships and Deputy Technical Delegate of the Old Coast 2017 test event of Commonwealth Games .

As Competition Manager of the 2018 Asian Games I was responsible for all aspects of the organization , all the hard work paid off with two bronze medals we got after 20 years Indonesia amateur boxing never got any medal . And the best of all , one of the bronze medalists our woman boxer of 60 Kg , she is the first woman Asian Games medalist in Indonesia boxing history ! Another amazing moment came into my life when I was selected as one of the torch bearers during the Asian Games Torch Relay.

My motto in boxing:

Everything is possible with the right attitude, passion and hard work.

My philosophy in boxing:

I believe in the clear sport, respecting each other during the competitions and in the fair play of boxing in and out of the ring.

My vision in boxing:

I will fight for all areas of the gender equality in boxing to raise and develop women's boxing from the grassroots up to the highest performance . My main objectives are to raise the number of female competitions in the world and the quantity of women's officials , coaches and referees & judges.

I started a hard work and built up a development strategy in Indonesia one decade ago and after my national level duties I was involved to the international competitions in 2011 . I feel that I have to continue my road in this lovely sport to serve the world's boxing life and to support the National Federations in better way.

We have tradition, heroes, values, and strong star boxers in each continent. Boxing has strong potential in all areas of the World and I believe our traditional combat sport will have a bright future. I am ready to use all of my knowledge, experiences and attitudes to raise boxing into another level.

My Personal skills:
