	Gideon Kendino
	Leyla Nasirova
	Hocine Oucherif
	Osamu Kadota
	Marisa Nimrod
	Sunita Malik
Apologies	Dilshod Kazakov
Absent	Vladislav Kurshev

1. Welcoming remarks by the AIBA President – *Umar Kremlev*

The President welcomed the committee members and thanked them for their labour-intensive work. Mr Kremlev emphasized that the main AIBA concern is the health of the athletes and their coaches. He says that Anti-Doping campaign is one of the key objectives of the current works and asked the committee to organize educational webinars on the issue in order to avoid any doping issue to fight for transparent performance at all levels. The President showed the readiness to support AIBA doctors in all financial questions, especially if there is a need for new medical equipment. In conclusion, Mr Kremlev wished the committee a fruitful work and thanked them again for their strong commitment and professional work.

2. Welcoming remarks by the Chairperson – *Dr. Ioannis Filippatos*

3. Working criteria of the committee

4. **Anti-doping issues**

a. Information on WADA site to be included on AIBA website

b. Collaboration with ITA on education programs and workshops

The Chairperson informed the committee members about the launch of special webinar series with ITA on May 26th and asked them to attend the meetings in order to keep updated and discuss the questions raised at the next committee meeting together. The subjects discussed will be the doping control process; prohibited list of medicaments and supplements, principles and values of clean sport and out-of competition testing process.

5. Digital Medical Passport/Record Book

It was noted that in current circumstances there is a need to establish digital Medical Books for all the boxers to show it at all pre-bout exams as well as for all the doctors and committee members to have an immediate access to medical history of each athlete if needed. All the exams will be included in the passport. It was also proposed to request AIBA to use its existing Database system providing doctors with an access for them to have opportunity to check medical history of the boxers participating in specific championship. It was agreed to try it first as a pilot project in order to improve the system afterwards as not everyone has necessary facilities, as 60% of digital passports will be already a great success.

6. Medical Clearance for boxers on national teams

7. Proposed AIBA Extraordinary course for Cutman

It was agreed to extend AIBA Medical Educational Courses Program and apart from the Ring-Side Doctors Course to launch a special training for the cutmen. It was proposed to ask all National Federations to appoint one doctor and one cutman for the courses that will help to avoid medical problems and let the committee members to be more aware of the concerns of the boxers.

8. Extraordinary Ringside Doctor's Congress and Certification Course

9. First Aid course for all National coaches facilitated by AIBA Instructor Doctors

It was agreed that one day is enough to conduct the First Aid Course for the coaches and that only the necessary procedures should be taught. It was noted that practical part of the course is crucial but due to travel restrictions around the world theoretical part can be taught via online platform and practical part could be delivered in the format of tutorial videos. In this regard, it was suggested working closely with the Coaches Committee in order to harmonize e-learning system.

10. World Men's Championship in Belgrade

The Chairperson noted that there are enough doctors ready to work at the championship in Serbia. He also suggested organizing courses for the ring-side doctors and cutmen as well as First Aid Course for the coaches during the championship with closer cooperation with the Coaches Committee.

11. Other key decisions of the committee

- To strictly prohibit people with epilepsy to do boxing;
- To ask AIBA to bring to each championship the same equipped medical bag for the doctors;
- To use Vaseline until the new more resistible product comes out;
- To decrease the Adrenaline dose to 1.000;

12. Closing remarks by the Chairperson

The Chairperson thanked the members for attending the first meeting of the Medical and Anti-Doping Committee and asked them to be professional in every matter. He also emphasized the need of collaboration with other committees if they have any questions to the doctors and asked to discuss it at the next meeting in June.
