FOREWORD

Over the past year, the International Boxing Association has been working closely with its National Federations and Confederations to provide essential support to athletes, officials and communities around the world.

With the help of our sponsorship agreement with Gazprom, we are grateful to be in a position of financial stability that is enabling us to lead the development of boxing as a discipline and a community, as well as ensure the sport is accessible to all.

In May 2021, we launched a first-of-its-kind Financial Support Programme to develop, support and strengthen boxing in all areas including grassroots programmes, whilst making management, government and administration systems more independent, efficient and transparent in the future.

We have provided substantial support to athletes who needed help attending major tournaments, and assisted in organising boxing events to generate more interest and draw new talent to our sport. In partnership with our equipment partner, Green Hill Sport, we have also distributed equipment that is allowing athletes to continue to follow their dreams.

It is our duty as an International Federation, as IBA, to continue to grow and develop boxing together with our National Federations and Confederations. This is only the beginning of an exciting new age for our sport and I encourage all of our partners to aim higher, think bigger, and promote the values of integrity, sustainability and equality that drive our sport forward.

Umar Kremlev
IBA President

INTRODUCTION

In 2021, International Boxing Association (IBA), for the first time in its history, invited National Federations and Confederations to apply for development grants as part of its new Financial Support Programme.

The funding was made available thanks to IBA's partnership with Gazprom – a major international sponsor of many leading sports organisations and properties. The purpose of these grants is to support the development of boxing on a national level and contribute to the progression of the sport in alignment with the UN Sustainable Development Goals.

Each application is reviewed and carefully assessed before the appropriate funds are issued in accordance with the IBA Financial Support Programme Regulations. The distribution of the grants is based on a rigorous policy and set of criteria:

- Use of funds must be aligned to IBA's objectives and must have explicit rationale
- Co-funding is a requirement, to ensure financial sustainability of projects
- Subject to careful scrutiny at application and then to monitoring during project implementation

Further details on regulations for for the IBA Financial Assistance can be found via the following link:

https://www.iba.sport/wp-content/uploads/2021/05/2021.01.09.AIBA_Financial_Assistance_Regulations_v1.2.pdf

Funds for the development grants are held in reserve by IBA up to a maximum of \$20,000 for each National Federation and \$500,000 for each Confederation. IBA currently has 203 National Federations and five Confederations.

This document outlines the received requests from the National Federations, approval status following reviews by the Financial Support Programme office, the IBA President or Secretary General, total requested and allocated funds, as well as status updates on each case. 4. AFBC – approved 30.11.2021

- Waiting to receive an invoice for the first instalment.

5. OCBC – approved 16/07/2021, pending legal matters after Congress

- OCBC has provided IBA with a detailed plan to spend funding once the restrictions are lifted for international competitions and events like R&J courses. But given that they can't provide IBA with a schedule for these events at the moment, they suggested that IBA hold the funding and start sending it once OCBC knows that they will be able to hold these events in the current financial year.
- OCBC has also asked for \$30,000 USD overall for Administration and Communication (out of the \$100,000 USD allowance) – this was approved by the Secretary General and can be sent to OCBC after President's approval.

OCBC held its Congress on 31 Aug 2021 to adopt a new Constitution.

- Waiting to receive an invoice for the first instalment.
