

Dear National Federations,

Please allow me to introduce myself, my motivations and how I could serve our Sport and all of you to reach our shared vision and ambition for Olympic Style Boxing.

I discovered boxing in 2012 as I started competing after my father passing away and fell in love with the sport. It gave me a purpose, a reason to believe that life was worth living. Boxing saved me when life had knocked me down!

I am 44 years old and competed across the country until I reached the age limit. Being unable to compete felt like a “little death” but made me realize that plenty could be done outside of the Ring to better our Sport and ensure the best path and support for our Athletes and Federations.

I am actively involved at the Local and National level where I successfully led the change battling Age and Sex discrimination.

Outside of Boxing I am a successful Finance Professional with over 20 years of experience. While we have achieved key milestones over the past year, I would like to bring my knowledge and experience to guarantee that IBA is reintegrated by the IOC and our Sport present at the 2028 Olympics.

My goal is to work and ensure that the conditions listed by the IOC in terms of governance, finance and judging are met by the requested deadline, while respecting the sovereignty of all National Federations and IBA.

My main strengths are my strong work ethic, knowledge, and experience. I am passionate, resilient, reliable, and committed in and outside of the ring. Boxing has given me so much and as a Loyal Friend I want to continue giving back.

It will be an honor to gain your trust and serve as a Director to represent all of you. I am confident that together we can achieve great things and grow our beloved Sport towards new heights.

Yours Sincerely,

Elise Seignolle
